

IN THE ABSTRACT:

Please enter a new page 10 containing the following
Abstract of the Disclosure.

Abstract of the Disclosure

AP A foam-generating shaving cream composition is presented which is suitable for application from a tube or from a dispenser. The shaving creme is composed of 15 to 30 percent by weight of a water-soluble nonionic surfactant, 5 to 20 percent by weight of a water-soluble anionic surfactant, and 1 to 10 percent by weight of a water-soluble polyol containing 2 to 10 carbon atoms and 2 to 7 hydroxyl groups.

REMARKS

Claims 1 to 7 were cancelled without prejudice and claims 8 - 17 added. Headings have been added in the specification to correspond with U.S. patent practice. Page 2, lines 19 - 23 were amended to more clearly translate the originally filed PCT application into English. The new claims are believed to present the same subject matter as the original claims 1 - 7, but in a form appropriate for U.S. examination. Being fully described and supported by the specification and original claims (see Table below), the new claims present no issues of written description or new matter.

**Preliminary Amendment of US National Stage for International
Application PCT/EP98/00472 filed January 29, 1999**

<u>New Claim</u>	<u>Written Description Support</u>
8	Original claim 1.
9	Original claim 3.
10	Original claim 5.
11	Specification at page 3, lines 26 to 28.
12	Original claim 6.
13	Original claim 4.
14	Original claim 1.
15	Original claim 2.
16	Specification at page 3, lines 22 to 25.
17	Original claim 7.

If any fees are due for entering this amendment, please
